About Me

I aim to become a Web Application Penetration Tester, driven by the growing importance of securing company websites. With websites playing a vital role in modern business, their protection against cyber threats is essential. I've started building my skills through platforms like TryHackMe, which has provided me with practical knowledge and hands-on experience.

Experience

International Digital Uiversity Marketing Manager & Sales Manager

April 2023 - August 2023

- Managed student exam registrations, prepared organized lists for examiners, and provided updates to over 40,000 users via a Telegram bot. Maintained and updated digital platforms like Telegram and Instagram while organizing events and promoting exams using the SPIN sales methodology.

International Digital Uiversity Front Office Manager & Head of Front Office

September 2023 - December 2024

- Facilitated enrollment contracts worth 35,000,000 UZS while guiding students through registration and advising on program selection. Managed contracts for Computing and Business Foundation programs, oversaw ICAT exams as a senior examiner, and trained new sales managers in the SPIN method. Collaborated with Marketing to implement innovative strategies and assisted students in securing educational loans.

Education

University Of Wolverhampton Uzbekistan, Tashkent, Campus IDU

2022 -

BSc in Cybersecurity (University of Wolverhampton diploma)
